

## **System Development Fee Analysis & Public Comment**

In June 2017 the North Carolina General Assembly ratified House Bill 436 “An Act to Provide for Uniform Authority to Implement System Development Fees for Public Water and Sewer Systems in North Carolina and to Clarify the Applicable Statute of Limitations”, thus amending Chapter 162A of the General Statutes by adding “Article 8, System Development Fees.” As a requirement of the aforementioned amended statute, the Town of Haw River retained the services of Alley, Williams, Carmen & King, Inc., a professional engineering consulting firm, to complete a system development fee analysis and prepare an accompanying written report.

Prior to considering adoption of a System Development Fee, the amended statute stipulates the local governmental unit must post the written analysis on its webpage or otherwise make it available for public review and comment. This public review and comment period shall extend for a minimum of 45 days and afford a means for written comments to be submitted to the analysis preparer.

In accordance with this condition of House Bill 436, the Town of Haw River is making the written analysis available for public review via the following web link [www.townofhawriver.com](http://www.townofhawriver.com) or at the Town of Haw River Town Hall, 403 East Main Street, Haw River, NC 27258 from April 19, 2018 through June 2, 2018

Written comments may be submitted via certified mail or electronic mail as shown below.
